| **Project** | CCS Connect: A Centralized Website for Information Dissemination, Event Management, and Campus Navigation |
| **Preferred Design Direction** | [ ] Academic-simple [ ] Production-style [ /] Balanced |

## How to Use This Questionnaire

Choose the option that best matches how you actually want CCS Connect to work. For [MULTIPLE] questions, select all applicable choices. You may write your own answer where none of the choices fit. These decisions will be used to revise the requirements, business rules, database schema, and final ERD.

**Important:** Do not choose an option because it is technically common. Choose based on the intended behavior of your actual website. The goal is to make every important ERD decision explicit.

## A. User Accounts & Roles

**1. Which account types should actually exist in the first version of CCS Connect?**

[/ ] A. Student, Faculty, Admin, Guest/Visitor
[ ] B. Student, Faculty, Staff, Admin, Guest/Visitor
[ ] C. Student, Faculty, Student Organization, Admin, Guest/Visitor
[ ] D. Student, Faculty, Staff, Student Organization, Admin, Guest/Visitor
[ ] E. Other: _____
Notes / rationale (optional): _____

**2. Can one person have more than one role?**

[/] A. No. One account = exactly one role
[ ] B. Yes. One account can have multiple roles
[ ] C. Only Admin can have multiple roles
[ ] D. Other: _____

**3. How should roles be stored?**

[/] A. Directly in User as student, faculty, admin, etc.
[ ] B. Separate Role table
[ ] C. User + separate Role table
[ ] D. Other: _____

**4. What information should every user account contain? [MULTIPLE]**

[ ] A. Full Name
[/] B. First Name
[ ] C. Middle Name
[/] D. Last Name
[/] E. Email
[/] F. Password
[/] G. Profile Picture

[ ] H. Contact Number

[ ] I. Student Number / Employee Number

[ ] J. Department / Program

[ ] K. Other: _____

**5. Should Student-specific and Faculty-specific information be stored separately?**

[/] A. No, everything goes directly in User

[ ] B. Yes, create StudentProfile and FacultyProfile

[ ] C. Only Student gets a separate profile

[ ] D. Only Faculty gets a separate profile

[ ] E. Other: _____

## B. Student Registration & Verification

**6. What information should a student provide when self-registering? [MULTIPLE]**

[/] A. Name

[ ] B. Student Number

[/] C. Email

[/] D. Password

[/] E. Year Level

[/] F. Block/Section

[ ] G. Program/Course

[ ] H. Contact Number

[ ] I. Profile Picture

[ ] J. Other: _____

Notes / rationale (optional): _____

**7. Is email verification mandatory before a student can log in?**

[/] A. Yes, absolutely

[ ] B. No, student can log in immediately

[ ] C. Verification is required only for certain accounts

[ ] D. Other: _____

**8. How should email verification be implemented?**

[ ] A. Laravel/framework authentication handles verification tokens

[ ] B. CCS Connect stores verification tokens in its own database table

[ ] C. Use an external email/authentication service

[/] D. Not decided yet

**9. What happens if a student does not verify their email?**

[/] A. Account remains inactive until verified

[ ] B. Account can log in but has limited access

[ ] C. Account automatically expires after a certain period

[ ] D. Admin must manually verify the student

[ ] E. Other: _____

## C. Account Activation / Deletion

**10. What should happen when Admin deactivates an account?**

[/] A. User cannot log in, but all data remains

[ ] B. User cannot log in and all participation data becomes hidden

[ ] C. Account is archived

[ ] D. Other: _____

Notes / rationale (optional): _____

**11. Should Admin be able to permanently delete users?**

[ ] A. Yes

[ ] B. No, only deactivate/archive

[ ] C. Yes, but only if the user has no important historical records

[/] D. Yes, but anonymize historical records instead of deleting them

[ ] E. Other: _____

**12. What should happen to a user's event participation when their account is deleted?**

[ ] A. Delete their participation records too

[/] B. Keep participation records and anonymize the user

[ ] C. Prevent deletion when participation records exist

[ ] D. Convert the account to a deleted/archived state instead

[ ] E. Other: _____

## D. Login Security

**13. After 5 incorrect login attempts, what should happen?**

[/] A. Account is locked for 5 minutes

[ ] B. Login is blocked for 5 minutes, but account itself remains active

[ ] C. Account is permanently locked until Admin unlocks it

[ ] D. Other: _____

Notes / rationale (optional): _____

**14. Should the system keep a history of login attempts?**

[/] A. Yes

[ ] B. No, only current failed-attempt count matters

[ ] C. Only failed attempts

[ ] D. Only successful logins

[ ] E. Other: _____

## E. Admin "Recently Login & Logout"

**15. What should "Recently Logs" record? [MULTIPLE]**

[/] A. Successful login

[ ] B. Failed login

[ ] C. Account creation

[ ] D. Account activation/deactivation

[ ] E. Account deletion

[ ] F. Event creation

[ ] G. Event editing

[ ] H. Event deletion

[ ] I. Announcement creation

[ ] J. Announcement editing

[ ] K. Announcement deletion

[ ] L. Announcement publishing

[ ] M. Event attendance/proof actions

[ ] N. Other: _____

Notes / rationale (optional): _____

**What should sidebar "Activity" record? [MULTIPLE]**

[/] A. Successful login

[/] B. Failed login

[/] C. Account creation

[/] D. Account activation/deactivation

[/] E. Account deletion

[/] F. Event creation

[/] G. Event editing

[/] H. Event deletion

[/] I. Announcement creation

[/] J. Announcement editing

[/] K. Announcement deletion

[/] L. Announcement publishing

[ ] M. Event attendance/proof actions

[ ] N. Other: _____

Notes / rationale (optional): _____

**16. Who should be able to view activity logs?**

[/] A. Admin only

[ ] B. Admin and Faculty

[ ] C. Admin, Faculty, and Student

[ ] D. Nobody; remove the log feature

[ ] E. Other: _____

## F. Announcements

**17. Who can create announcements?**

[/] A. Admin only

[ ] B. Admin + Faculty

[ ] C. Admin + Faculty + Staff

[ ] D. Other: _____

Notes / rationale (optional): _____

**18. Should the database record who created an announcement?**

[/] A. Yes

[ ] B. No

[ ] C. Only for Admin-created announcements

[ ] D. Only for Faculty-created announcements

[ ] E. Other: _____

**19. What should happen to an announcement after creation?**

[ ] A. Created → immediately published

[/] B. Created → Draft → Published

[ ] C. Created → Admin approval → Published

[ ] D. Created → Faculty submits → Admin approves → Published

[ ] E. Other: _____

**20. Can an announcement contain multiple images?**

[ ] A. Yes

[ ] B. Only one image

[/] C. Images are optional, but multiple are allowed

[ ] D. Other: _____

## G. Event Management

**21. Who can create events?**

[/] A. Faculty + Admin

[ ] B. Faculty only

[ ] C. Admin only

[ ] D. Faculty + Admin + Staff

[ ] E. Other: _____

Notes / rationale (optional): _____

**22. Should the database record who created each event?**

[/] A. Yes

[ ] B. No

[ ] C. Only Faculty creators

[ ] D. Other: _____

**23. What event lifecycle do you want?**

[ ] A. Created → Published → Completed

[ ] B. Draft → Published → Registration Open → Registration Closed → Completed

[/] C. Draft → Published → Open → Full/Closed → Ongoing → Completed → Archived

[ ] D. Other: _____

**24. What should happen when an event reaches the maximum participant limit?**

[/] A. Registration button becomes disabled

[ ] B. Registration button disappears

[ ] C. Students can join a waiting list

[ ] D. Admin/Faculty can still manually register participants

[ ] E. Other: _____

**25. Should students be able to cancel their event registration?**

[ ] A. Yes, anytime before registration closes

[ ] B. Yes, but only before a specified deadline

[/] C. No cancellation

[ ] D. Only Faculty/Admin can remove a registration

[ ] E. Other: _____

## H. Year & Block

**26. Where should Year Level and Block belong?**

[ ] A. Only in EventRegistration

[ ] B. Only in StudentProfile

[ ] C. Both StudentProfile and EventRegistration

[/] D. StudentProfile stores current year/block, while EventRegistration fetch the current year/block from StudentProfile

[ ] E. Other: _____

Notes / rationale (optional): _____

## I. Event Proof Photo

**27. Is proof photo required for every event?**

[ ] A. Yes, every event

[ ] B. No, Faculty decides per event

[ ] C. Admin decides per event

[ ] D. Student decides whether to upload

[/] E. Other: No, Admin decides for their event, and faculty decides for their event.

Notes / rationale (optional): _____

**28. What proof statuses should exist?**

[ ] A. NOT_SUBMITTED / APPROVED / REJECTED

[ ] B. NOT_REQUIRED / PENDING / APPROVED / REJECTED

[/] C. NOT_REQUIRED / PENDING / APPROVED / REJECTED / EXPIRED

[ ] D. Other: _____

**29. Who can review/approve/reject proof photos?**

[ ] A. Faculty who created the event

[ ] B. Any Faculty

[ ] C. Admin only

[/] D. Faculty + Admin

[ ] E. Other: _____

**30. When proof is rejected, what happens?**

[ ] A. Student can upload another photo

[ ] B. Student cannot upload again

[ ] C. Faculty must manually reopen the upload

[/] D. Student gets a specific rejection reason and can re-upload

[ ] E. Other: _____

## J. Attendance

**31. How should attendance be determined?**

[ ] A. Approved proof automatically means attended

[ ] B. Faculty manually marks attendance

[ ] C. Approved proof + Faculty confirmation

[ ] D. QR code/check-in

[/] E. Other: QR code/check-in + approved proof photo

Notes / rationale (optional): _____

**32. What attendance statuses should exist?**

[ ] A. ATTENDED / ABSENT

[ ] B. PENDING / ATTENDED / ABSENT

[/] C. PENDING / ATTENDED / ABSENT / INCOMPLETE

[ ] D. REGISTERED / ATTENDED / ABSENT / INCOMPLETE / CANCELLED

[ ] E. Other: _____

**33. Who can modify attendance?**

[ ] A. Faculty only

[/] B. Faculty + Admin

[ ] C. Admin only

[ ] D. Automatically determined by system

[ ] E. Other: _____

## K. Event Location & Campus Navigation

**34. Who manages campus locations?**

[/] A. Locations are predefined and developers configure them

[ ] B. Admin can add/edit/delete locations

[ ] C. Faculty can add locations

[ ] D. Admin + Faculty

[ ] E. Other: _____

Notes / rationale (optional): _____

**35. Should the route connections between locations be stored in the database?**

[ ] A. Yes, store connections in LocationConnection

[/] B. No, route lines are hardcoded/static in the frontend

[ ] C. Store connections, but only Admin can modify them

[ ] D. Other: _____

**36. What information should a location contain? [MULTIPLE]**

[/] A. Location Name

[/] B. Description

[/] C. Building

[/] D. Floor

[/] E. Room Number

[ ] F. Map X/Y coordinates

[ ] G. Latitude/Longitude

[ ] H. Location Image

[ ] I. Location Type

[ ] J. Other: _____

## L. Files & Images

**37. How should uploaded images be stored?**

[/] A. File path/URL in database, actual file in storage

[ ] B. Binary image directly in MySQL

[ ] C. External cloud storage URL

[ ] D. Not decided

Notes / rationale (optional): _____

**38. Should old proof photos be retained after a student uploads a replacement?**

[/] A. No, replace the old file

[ ] B. Yes, keep all versions

[ ] C. Keep only the latest approved/rejected version

[ ] D. Other: _____

## M. Reporting

**39. Which event reports should the system generate? [MULTIPLE]**

[ ] A. Registered participants

[ ] B. Attendees

[ ] C. Absentees

[ ] D. Incomplete participants

[ ] E. Proof submitted

[ ] F. Proof approved

[ ] G. Proof rejected

[ ] H. Participation rate

[ ] I. Attendance rate

[ ] J. Participants grouped by year/block

[/] K. Other: - Event Title, Date, Time, Location, Target Participants, Year and Section, Total Registered, Total Attendees, Total Absentees, Proof Submitted(if Required), Attendance/Participation Rate.

Notes / rationale (optional): _____

**40. Should reports be stored as database records?**

[ ] A. No, generate them dynamically from event/registration data

[ ] B. Yes, save report records

[/] C. Generate dynamically but allow exporting to PDF/Excel

[ ] D. Other: _____

## N. Event Deletion & History

**41. Should Faculty/Admin be allowed to permanently delete completed events?**

[/] A. Yes

[ ] B. No, completed events should be archived

[ ] C. Only Admin can permanently delete them

[ ] D. Delete event but retain participation history

[ ] E. Other: _____

Notes / rationale (optional): Yes, but only if faculty/Admin want to delete the event, all the completed event must be archived but they can be able to delete the completed event

**42. What should happen to an event's registrations when an event is deleted/archived?**

[ ] A. Delete registrations

[ ] B. Keep registrations

[ ] C. Keep registrations but prevent further changes

[/] D. Other: if the event is deleted, the event's registrations will be also deleted alongside with the deleted event, but if the event is only archived the event's registrations will be kept.

O. Final Architecture Decisions

43. Do you want CCS Connect to be designed primarily as:

[ ] A. A simple academic project — minimal database, easier implementation

[ ] B. A realistic production-style system — stronger security, auditability, and data integrity

[/] C. Somewhere in between

[ ] D. Other: _____

Notes / rationale (optional): _____

44. What backend/database stack are you planning to use?

[ ] A. Laravel + MySQL

[ ] B. Laravel + PostgreSQL

[ ] C. PHP + MySQL without Laravel

[ ] D. Node.js + MySQL

[ ] E. Node.js + PostgreSQL

[ ] F. Laravel + React + MySQL

[/] G. Other: PHP + Laravel + MySQL
